A smoother checkout. A clearer view of every store

Connect checkout with pricing, promotions and daily store control.

Refined POS interface concept. Illustrative device and transaction.

THE BUSINESS VIEW

Connected **work.** Clearer **decisions.**

Connect the sales counter with store operations, customer loyalty, inventory and finance. Araiqa Nuqta brings product lookup, promotions, payments and register control into a touch-friendly POS environment, helping retail teams manage the customer transaction while managers follow sales, stock and cash across their outlets.

Every outlet in view.

Supplied interface concept. Illustrative data, not customer results.

01 A focused checkout experience

Move from product lookup to offers and payment in a connected workflow designed around the cashier's daily tasks.

02 Consistent commercial rules

Set pricing and promotions centrally so selected outlets and registers apply the commercial approach intended for each sale.

03 Customer value beyond the sale

Connect customer records with loyalty points, categories and gift vouchers to support relevant offers and repeat visits.

04 Daily control across stores

Review sales, register cash and exceptions across outlets while each transaction carries through to inventory and finance.

The detail behind daily control

01

Checkout & product lookup

Scan barcodes or search the catalogue by name or code, with support for weighing devices and the configured receipt-printing setup.

02

Pricing, offers & promotions

Manage discounts, offers, schemes and seasonal promotions centrally, applying the relevant commercial rules to selected outlets or registers.

03

Customers, loyalty & vouchers

Look up customer records, categories and payment terms, earn or redeem loyalty points, and sell or accept gift vouchers.

Payments & register cash

Handle configured cash, card, wallet, gift-voucher and split-payment methods, while tracking denominations and cash movements for each register.

Cashier permissions & exceptions

Control price and quantity overrides and voids through user permissions, then review exception reports as part of the daily closing process.

Store, stock & financial visibility

Follow sales across outlets, review end-of-day summaries and connect transactions to inventory and financial postings for a consistent operating view.

BUILT AROUND YOUR TEAM

For retail owners, store managers and cashiers running supermarkets, grocery, fashion and multi-outlet operations with shared pricing, promotions and stock visibility.

Retail owners	Store managers	Cashiers
Outlet reports · Pricing Stock visibility	Promotions · Shifts End-of-day	Fast search · Split pay Receipt print

THE OPERATING WORKFLOW

Checkout and day-end control

01

Find the item

Scan the barcode, weigh the item where configured or search by product name or code.

02

Apply the offer

Apply the relevant promotion, customer discount or loyalty benefit using the configured sales rules.

03

Take payment

Complete the transaction through the configured payment method, including split payments where needed.

04

Issue & update

Produce the receipt and connect the sale with stock movement and financial posting.

05

Close & review

Check register cash, end-of-day summaries and exception reports before completing daily control.

IN PRACTICE

Coordinate the sale and the store behind it

A Saudi retailer launches a seasonal offer across selected stores. Cashiers identify customers, scan items, apply the relevant offer and complete payment. Sales update inventory and finance, while store managers follow register cash and exceptions. At day-end, the team reviews the closing summary and uses the results to guide the next day's store priorities.

Offer applied

Stock & finance updated

Day-end ready

Illustrative business scenario. Workflow steps vary by agreed setup.

VISIBILITY & DEPLOYMENT

Useful answers for the next decision

How are outlets trading?

Review sales across outlets to guide store conversations and understand the performance of day-to-day operations.

Are offers applied consistently?

Review the centrally configured promotion rules and their outlet coverage before extending or changing an offer.

Which transactions need review?

Use exception reports to examine overrides and voids in the context of cashier permissions and daily activity.

Does register cash reconcile?

Compare denominations, cash movements and end-of-day summaries as part of each register's closing review.

THE DETAIL BEHIND THE EVERYDAY

Made for every retail format

Online and offline retail chains, restaurants, hotels and fast-food outlets run from the same Nuqta core.

Supermarkets & grocery

Weighing scale integration, lanes and fast checkout.

Restaurants & cafés

Quick tickets, kitchen orders and shift cash control.

Fashion & lifestyle

Variants, seasonal pricing and customer categories.

A LITTLE MORE CLARITY

Frequently asked questions

A few things to know about Nuqta.

Q **Which retail hardware can we connect?**

Scanners, scales, displays and receipt printers require a compatibility check. Confirm exact devices and connection methods before deployment.

Q **What payment methods can a checkout offer?**

Available methods depend on your approved payment provider, devices and integration. This review page does not process payments.

Q **Can we manage offers across outlets?**

Central pricing, offers and customer categories are part of the referenced scope. Outlet access and promotion rules need configuration.
